"The Bellamy Trial"

With Leatrice Joy and Betty Bronson

A beautiful society matron is found dead in a deserted cottage on a Long Island estate. The dragnet of the law snarles her husband, a former sweetheart, and a rival in love.

The eyes of the entire nation are turned towards the little courtroom where the Trial of the Century goes on. And here, at last, is where you get a front-row seat, through this picture, of every last thrill and sensation!

Deep Oil Test For Champion

Material is being unloaded here for the drilling of a deep test well by the Marland-Hudson Bay interests. For over a year shallow tests have been in progress just north of Champion, near Lomond, and in the Barons district. This year Champion has been decided upon for a deep well and already acreage is leased in every direction. The location chosen is eight miles northeast of town. J. M. Roebuck, of Champion, has been acting as the company's agent in this vicinity since the beginning of operations. Great interest will be taken in the progress of drilling operations.

Alston Holds Hard Times' Dance

An old time dance held under the auspices of the Golden Rule Women's Institute on Friday evening was largely attended and an extra good time was enjoyed. Good music assisted in making the evening a pleasant one.

A card party at the residence of M. Sletto was a Monday night feature and was well attended. The proceeds go towards paying the expenses of the W. L. delegate to the annual convention.

Mrs. Nichol was appointed delegate to represent Alston at the Medicine Hat district convention.

W. Isaacson and A. Wamug motored to Calgary on Tuesday.

The area of Rocky Mountain National Park in Alberta is to be increased by 103½ square miles and will embrace a portion of the land formerly included in Jasper National Park while the latter park will also be increased by the addition of 17 square miles. Jasper Park, the largest in the province, formerly had an area of 5,380 square miles and Rocky Mountain National Park was 2,751 square miles in extent.

Hon. Jas. Robb, Dominion Minister of Finance, has announced the appointment of Frank S. Jacobs of Dawson, Alberta, to the vacancy on the Tariff Advisory Board to succeed Hon. D. G. McKenzie who resigned some time ago to enter the provincial government of Manitoba. Mr. Jacobs is a farmer and a former editor of the Farm and Ranch Review, Calgary.

Opposition to the increase of the gasoline tax to five cents per gallon is being sponsored by the Alberta Motor Association unless the proceeds are earmarked for road construction. It is also pointed out that the drawback for farm tractors, etc., is very likely to produce gasoline bootleggers.

The Marland-Hudson Bay oil interests, who have been making shallow tests in the vicinity of Champion and at Lomond and Barons, have decided upon a test at Champion and materials are already on the ground and in transit for this purpose. It is understood that drilling will continue during the summer at Lomond and Barons.

Mr. and Mrs. W. C. Hoskins were in Calgary during the week.

Crane's Canadians Delight Dancers

Les Crane's Canadians supplied excellent music for the dance held in the new community hall on Wednesday night. The attendance was eminently satisfactory, the hall being comfortably filled. The ladies of the Royal Purple handled the lunch very satisfactorily. There were many present from outside points, Carmangay, Vulean and Reid Hill being well represented.

Power School Draws Big Crowd

The Twin City Power Farming School, held in Campbell's hall on Thursday, February 28th, drew a large crowd and intense interest was displayed in the lecture, which was supplemented by moving pictures. It is quite apparent that keen interest is being taken in all lines of power machinery. Granlin Bros. are to be congratulated on securing such a popular illustration of the Twin City tractor.

MacCumber—Fisher

A marriage in which Harold MacCumber and Miss Maxine Fisher, daughter of Mr. and Mrs. I. H. Fisher of Champion, took place at twelve o'clock on Saturday, March 2nd, in the Sherlock building, Leithbridge, Bishop Hyrum Smith officiating. The young people are both well known in Champion and vicinity and all will join in wishing them success in their matrimonial venture.

Very satisfactory returns were received for 30 parcels of irrigation land disposed of by auction at Taber on Saturday last. The record price of the sale was \$80 per acre paid by N. Jensen for a parcel of land in the vicinity of Barnwell.

The teachers moved last week into their new quarters, formerly the high school, but recently remodelled for the teachers' use. With its new furnishings the new residence is highly pleasing to its occupants.

A. Baker left for Isle St. George in Lake Erie on Wednesday, where his daughter now resides. He will be away for some time, W. Adams being in charge of the oil business during his absence.

Norma Joyce Nielsen, seven weeks old daughter of Mr. and Mrs. G. A. Nielsen died on Monday, March 4th, the funeral took place on Wednesday to Reid Hill cemetery, Rev. De Long, officiating.

We wish to thank our friends and neighbors for their help and sympathy during our recent bereavement, also those who sent flowers. Mr. and Mrs. G. A. Nielsen and family.

Mrs. Holman wishes to thank the ladies of the Women's Institute who, were so kind in sending flowers to her during her illness.

Mr. and Mrs. C. B. Nelson wish to thank the Champion Elks for flowers sent to Mrs. Nelson during her illness.

Mr. and Mrs. Charles Nelson are rejoicing in the birth of a daughter at Mrs. Milliken's maternity home, Champion, on Saturday March 2nd.

Society Brand Clothes

© Society Brand

To Men of Good Judgment and a Sense of Value

When you buy a motor car, a collar, tooth-paste, food,—in fact everything, what influences your purchase the most? Isn't it usually the name and reputation of the maker? You are, we believe, a man of good judgment, a man with a sense of value. Therefore, when buying your clothes, shouldn't you be just as careful in making certain of the reputation of the maker that will tailor them for you?

Neither price nor fine fabric is the barometer of value. Its honest and expert workmanship—quality and dependable woollens—plus smart style that is put into the garment by a reputable maker and sold at a reasonable and fair price.

In our Society Brand Clothes you are assured of all this. For no clothes are more finely tailored from dependable and exclusive fabrics or more smartly styled. Society Brand is the foremost maker of fine clothes, as well as the leading style house in the world.

Through our arrangement with the Society Brand establishment we are able to give to men of good judgment and a sense of value a very distinguished clothing service in either ready-to-wear or made-to-individual measurements.

The new Spring Society Brand custom woollens are here, and your inspection is invited.

NOTES AND COMMENT.

Herbert Hoover is now the full fledged president of the United States, inauguration having taken place on Monday, March 4.

If the March that comes in like a lamb goes out like a lion we are safe to count on rough weather about three weeks from now.

Good seed is being urged from every quarter and it is to be hoped will result in more than the usual acre being shown this spring in the selection of the grain to be sown. The fact that there is so much damaged grain in the country suggests more than the usual care in the selection of seed.

The section of country in which the Marland-Hudson Bay interests are prospecting for oil has already achieved distinction as part of the best wheat growing district in the world, some of the biggest yields on record having been achieved in the territory in question. However, everybody will be pleased to see it one of the biggest oil producing fields in the world.

After what was practically the very finest kind of a balmy spring on Monday, Tuesday furnished a snowstorm full as striking as a winter production as the previous day's effort in its line. There is nothing like variety and the weather man surely furnishes it in this country.

While this year you may not see the distribution of power implements to the extent of last year's record, there can be no mistaking the fact that there is no falling off in the interest of the farming community in the change from horse power to tractor power on the farm and further progress in this direction will occur this summer.

Hon. Geo. Headley has been the subject of attack in the legislature in his capacity as minister of health in connection with the mental hospital at Ponoka. The treatment of insane persons is a particularly sensitive point with the majority of people, so many instances having come to light in past years where downright cruelty was practiced. The unfortunate death at Ponoka and the investigation which followed opened up the question to how this institution was conducted and the present attack on the minister is the result in part. The members of the farmers' party seem to be inclined to support the minister in his attitude toward the matter and conviction was very little further is likely to be heard about it.

Last year's village expenditure included some big items and some smaller ones which it is to be hoped will not have to be repeated in 1929, and possibly may lead to a very

considerable reduction in the necessary levy. Everybody admires courage in municipal expenditures and this quality was surely not lacking in last year's council. Following are a few of the outstanding figures:

Sidewalks.....\$85.10
Grading.....\$34.45
Signs.....\$6.50
Fire Department.....\$80.27
Cell.....\$4.00
.....\$236.32

In addition to this the levy for electric light was necessary for the first time, viz. \$285.00. This latter amount added to special expenditure in other directions naturally made a very sudden jump in taxes, so sudden in fact as to be noticeable.

able to almost everyone interested.

A splendid optimism may be justified in village affairs at large but it is very doubtful if any continued expenditure on last year's basis will meet with public approval.

The result of the vote in regard to disorganization of the Municipal District of Clifton will be regarded with satisfaction by the great majority of residents. The decision was emphatic as far as may be inferred from a light vote. It is always a matter of regret that it is impossible to secure a complete expression of opinion on matters of this kind. It is safe to assume, however, that the affirmative in this question polled the majority of the voted available, whereas the no's were only partially represented. It is possible there may be grounds for disorganizing the Municipal District, but these are well within the hands of the ratepayers of the district. The handicap of having municipal affairs handled from Edmonton is too apparent to be overlooked.

Re Dance at Alston on 22nd March

Editor Champion Chronicle:

Dear Sir,—
It has come to my knowledge that some person or persons from the Alston community reported that I was responsible for the dance being held at Alston on Friday, Feb. 22nd, and also that it was done in opposition to the Champion hall's opening dance. I wish to correct this error and explain how this dance was held. Owing to this dance in Champion and the condition of the roads the Alston U. F. A. had postponed a dance they intended giving the preceding Wednesday. This disappointed a number of people as this was the third dance which had been postponed. So some of the young folks decided to give a dance on Friday. Only thirteen tickets were sold and no one was present who had intended being present in Champion at the opening dance. Four years ago when the community hall movement began I was appointed to represent the west district on the committee. Since then at every opportunity I have been a booster for a community hall in Champion, otherwise I certainly would not have become a shareholder at a time when money is so scarce.

On Tuesday, Feb. 19th the Alston Community Hall Board held an executive meeting at which I moved that a committee be appointed from our board to confer with the Champion hall executive in order to arrange entertainment dates which would not conflict.

I hope this will convince those interested in the Champion hall that I am not a knocker but a supporter of the new community hall.

Signed

W. M. Isaacson.

Cleaning Grain For Sowing

(Experimental Farms Note)

The cleaning of seed grain should be one of the most important operations on the farm, and the farmer who retains clean land and produces clean grain year after year must follow the practice of thoroughly cleaning all grain before sowing.

The machinery necessary for cleaning and the way of doing this work must be governed by the weed seeds and other impurities to be removed. Impurities such as broken straw, chaff, and weed seeds which differ markedly in size and shape from the grain being cleaned can be readily cleaned out by most fanning mills properly operated. The weed seeds which are of much the same size as the grain being cleaned are the main difficulty and where such separations are to be made special machines are necessary and in special cases, as separating wild oats from oats, the only thorough method of cleaning is by hand picking.

The cleaning out of inert matter and weed seeds of widely different size from the grain need not be discussed extensively in this article as nearly any make of general purpose cleaner properly operated will do good work in such cases. Care must be taken to operate at the right speed and to feed within its capacity as when the sieves are overloaded no machine can do good work.

The cleaning of grain where the impurities are similar in shape presents greater difficulty and in many cases special cleaners are required to do a good job. In any district where a central cleaning plant is available the farmer is advised to have his grain cleaned at such a plant unless he raises sufficient seed to warrant installing a plant of his own. A fairly satisfactory small cleaning plant can be fixed up by a farmer by combining a fanning mill and an indent or disk machine in line. The fanning mill will blow off or separate the inert matter and widely different sized seeds and the special machine for the purpose will make the final separations. Some farmers use a combination of three machines, the last two being suited for special

purposes.

To determine whether the machine is doing the work you wish, spread out a quantity of cleaned seed on a table where weed seeds can be more readily seen. A sample may also be sent to a seed laboratory where an analysis of the impurities will be made.

All seed should be cleaned before sowing and cleaning should be done early enough in the spring so that the work does not have to be hurried.

NEWS NOTES

An attendance of approximately 200 has been registered at the special course for weed inspectors held by the Department of Agriculture at the University of Alberta during the past week. Officials of the Department report that this has been one of the most successful events of its kind ever held in the province. A keen and intelligent interest has been taken by those in attendance in the various addresses and discussions making up the program, and it is felt that as a result of this course, a large number of men will be well equipped to save efficiently as weed inspectors in their own communities during the coming summer.

Letters reaching the Publicity Commissioner's Office continue to indicate the interest in the opportunities for settlement in Alberta which is being shown by farmers in the mid-western states. The announcement is made in a letter from A. E. Filkie, Canadian Government Agent at Omaha, Nebraska, that ten farmers from one district in Nebraska plan to come to Alberta early in the present spring with the purpose of purchasing from ten to fifteen sections of land. Similar encouraging reports are being received from a number of other localities in which exhibits of Alberta agricultural products were shown by the Publicity Branch during the past two seasons.

A word from the publisher ... about advertising

The products you see consistently advertised in this paper are worthy of your confidence.

It takes two things to make a consistent advertiser. One is a strong conviction that he has a product that will hold its place in public favor despite competition. The other is the actual proof of that... the increasing popularity of his product.

If his product will not stand the test of comparison he would simply be throwing his advertising investment away. If the buying public rejects his product after it has been offered in advertising he has thrown his advertising investment away.

That's why the manufacturer who advertises his merchandise consistently is very sure of his quality... and why you may be sure of it, too.

Read the advertising here in your newspaper... it will guide you to the buying of worthy merchandise

Maintain the Quality Of Alberta's Crops

BETTER SEED

MEANS

Better Yields - Better Grades - Better Prices

A special committee appointed by the Minister of Agriculture, with the co-operation of numerous organizations in the province, is urging the use this spring by farmers throughout the province of

High Quality, Clean, Treated Seed Grain

in order to reduce the heavy annual losses sustained by sowing inferior seed.

Farmers can co-operate by:

1. Using registered seed wherever available.
2. Using at least high quality commercial seed.
3. Having seed tested for germination and purity.
4. Treating seed for smut.
5. Thoroughly cleaning all grain intended for seed.
6. Seeding only varieties of recognized quality and varieties suitable to the district.

Good seed will be in demand this spring. Secure your requirements early—before the supply is exhausted.

U. F. A. Local, Boards of Trade, the Wheat Pool, Banks, Commercial Grain Firms, the press, and many other organizations are working in co-operation with—

BETTER SEED COMMITTEE

consisting of representatives of the Provincial Department of Agriculture, the Dominion Seed Branch, the Canadian Seed Growers' Association, the Alberta Seed Growers' Association, the C. P. R. Agricultural Department, and the University of Alberta.

D. A. McCANNEL,
Provincial Publicity Commissioner, Secretary.

WORLD HAPPENINGS BRIEFLY TOLD

Vancouver, B.C., as under serious consideration as the site for the next \$50,000 Wrigley marathon swim. Edward Hughes, director of the event has announced.

The Daily Mail, London, Eng., says the Czech-Slovakian minister of the Interior has refused Leon Trotsky a passport visa to permit him to enter that country.

Reports from apparently well-informed quarters in Canton, said the Canton government expects the Nationalist government at Nanking soon to launch a military campaign against it.

The addition of the law to penalties for trafficking in drugs was approved by the special committee of the House of Commons, which is considering amendments to the Opium and Narcotic Drugs Act.

Approximately 35,000 bushels of seed have been graded and sealed under registered grades since the Dominion seed branch of the Department of Agriculture started operations in Saskatoon at the beginning of the year.

"The recommendations of the imperial wireless and cable conference, 1928, have been in general accepted by the governments concerned, including the government of Canada," Hon. P. J. Veniot, postmaster-general, stated in the House of Commons.

The Toronto city council has authorized the board of control to call for designs for a memorial to Sir Adam Beck. The memorial is not to cost more than \$25,000, and its main feature is to be a bronze statue of Sir Adam. The monument will be erected on University Avenue, Toronto.

Nobody ever has to take a tonic to create an appetite for fatty.

"PINKHAM'S COMPOUND IS WONDERFUL"

Read This Letter from a Grateful Woman

Vancouver, Ont.—"I think Lydia E. Pinkham's Vegetable Compound is wonderful. I have had six children of which four are living and my youngest is a bonnie baby. I was eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge you to take it. I am sure they will receive the same benefit I did."—Mrs. MILTON McLELLIN, Vancouver, Ontario.

W. N. H. 1778

Britain's Wheat Market Valuable To Canada

Interesting Facts Brought Out in Report Published From Ottawa
The market in Great Britain is worth twice as much to the Canadian wheat grower as the markets of all the rest of the world taken together. That is a fact that stands out in a report published from Ottawa giving the export figures for the present crop year up to date. Putting it another way, if all other countries barred our wheat by excluding tariffs, the Canadian farmer could still find a market for two-thirds the amount of wheat he now produces in Great Britain. Or, if Britain barred our wheat, we would have to find buyers elsewhere for three times the amount of wheat we are able to sell in other countries at present.

Canadian wheat—and every other Canadian product—has a preference in Great Britain. The proof is that no other importing country in Europe admits our wheat on the same favorable terms. Should Britain ever adopt a tariff, there is no doubt whatever that Canadian wheat would be admitted on the most favorable conditions granted to any wheat-growing country. A tariff is being actually proposed there in order that a mutual preference could be given to Canadian wheat. The British market is the permanent outlet for Canada's surplus wheat crop. It is probably the largest outlet there is and the largest there is likely to be. That is a fact which Canadians ought to keep in mind when they think of international trade—and when they are thinking of buying imported goods.—Edmonton Bulletin.

Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes—"Several years ago I was troubled with my heart and nerves so bad, at times my hands would become numb and cold. My doctor's medicine, for a while, bit it a little better or no good. I happened to see

advised and started taking them, and continued to take some time, and since then I have had no return of my trouble."

Write for a box at all druggists and dealers, or mailed direct on enclosure to The T. M. Milburn Co., Ltd., Toronto, Ont.

Drigible Flight Delayed

Giant British Craft Not Making Trip To Canada Today

The flight of the dirigible R-10 from England to Canada will probably be made towards the end of July. It was learned at the department of national defence. It had been set for the end of May, but technical improvements to the craft are being made which will necessitate delay.

Officials of the department regard the flight as one of the most important steps in inter-imperial communication so far attempted. Possibility of a route to Australia across Canada is not considered beyond the bounds of possibility.

Asthma Victim. The man or woman subject to asthma is invited a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many a completely restored health and happiness. It is known and prized in every section of this broad land.

What "It" Is
Perhaps this can be explained generally to all husbands, but a woman in the Willenden police court recently defined the word "it" as used by a famous woman novelist. The clerk pointed to a man in court and said "Is that your husband?" She replied, "Yes, sir, that's it."

A philosopher is a man who never feels badly after he has made an ass of himself.

INDIGESTION RELIEVED QUICKLY

The Pure Vegetable Pills are active in its digestive action. Often one of these little pills taken after meals or at bedtime will do wonders, especially when you have indigestion or are troubled with constipation. Many young and old can take them. All druggists sell and The two pills.

THE EASY WAY

Thousands need cod-liver oil to increase vitality and build up resistance.

Scott's Emulsion

is the easy and pleasant way to exact the most out of cod-liver oil to reinforce your body with strength to build resistance.

Scott & Bown, Toronto, Ont. 25-8

SUNDAY SCHOOL LESSON

MARCH 10

BAPTISM AND THE LORD'S SUPPER

Golden Text: "This do in remembrance of Me."—1 Corinthians 11:24.
Lesson: Matthew 2:1-12; 28:19; Acts 2:42, 43; Romans 6:3-14.
1 Corinthians 11:23-26
Devotional Reading: Revelation 7, 9-17.

Explanations and Comments

Christ's Commission To Baptize All the Nations, Matthew 28:19, 20.—Upon a mountain in Galilee after the resurrection of Jesus, the eleven disciples and Him and worshiped. He told them of His universal dominion in heaven and on earth, and gave them His world-wide commission to make His power a reality: "Go ye therefore, and make disciples of all nations."

"Remember, fellow Christians, how wide was the horizon of Jesus. Our horizon widened from cradle to home, school, city, and, with some exceptions, to the world. Jesus the outside rim of the earth was the first horizon that He saw. He said: 'When I was born, good tidings came unto whomsoever will believe in Me.' 'Among all nations,' throughout the whole world, 'I have created men.' The utmost part of the earth; are Christ's words. 'Go ye into all the world' is His limitless command. His boundless expectation."—Maitland B. Marshall.

Jesus directed His followers to baptize disciples into the name of the Father, and of the Son, and of the Holy Spirit, teaching them to observe all that He commanded. He commanded them, "Baptism is (1) into the name of the Father, as Jesus, who rules us, as free agents, by His love. It is (2) into the name of the Son: in baptism we assent, as Peter did, 'Thou art the Christ, the Son of the living God,' and consent, as Thomas did, 'My Lord, and my God.' We give ourselves to be taught, and saved, and ruled, by Christ. It is (3) into the name of the Holy Spirit. We give ourselves to His guidance, as our Sanctifier, Teacher, Guide and Comforter."

And then Jesus gave His wonderful words of comfort and encouragement and cheer: "Lo, I am with you always, to the end of the world."

"Our responsibility for missionary work is latent in the command: 'Christ; our power for that work is given in this great promise of Christ.'

Success and Happiness

People Do Not Fail Entirely Who Never Reached Goal

Mr. Edson, on his eighty-second birthday, told a number of assembled newspapermen that he was not acquainted with anyone who was a failure. There is no reason to suppose that Mr. Edson was jesting and it would be an impertinence to suggest that he does not know his own mind. But if by "happiness" he means what tens of thousands of his fellow men mean—the satisfaction of having tried hard and won—Mr. Edson is clearly stretching a point, since in that case he himself should be one of the happiest of men. He has gone from victory to victory in the world of scientific invention and he will leave an undying name behind him. In some few things he may not, in his own opinion, have succeeded; but this is not to say that he failed. You do not necessarily fail entirely because you do not wholly succeed; and Thomas A. Edison has been a very notable success.

When a mother detects from the writhings and fretting of a child that she is troubled, she should procure a reliable remedy in Miller's Peppermint Cure which will expel all poisons from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No woman can exist where these Powders are used.

The Good Old Days
Maybe two can live cheaper than one, after all. Mr. and Mrs. Tom Lovelock, of Lynham, England, in celebrating their golden wedding anniversary, revealed that they were married when Lovelock was making but \$2.50 a week and that shortly after his salary was reduced to \$2.25.

Scientist says life lived in a series of jumps, and a cursory inspection of our thoroughfares convinces us it is still evolving that way.

Minard's Linctant for Coughs and Colds.

Want Rail Deal Approved

Agreement Between Railways and Province of Alberta For Ratification

Approval of the agreement between the C.N.R., the C.P.R. and the Province of Alberta, for the purchase of the undertakings of the Edmonton, Dungeness and British Columbia railways; the Central Canada Railway Company; the Central Canada Express Company; the Alberta Great Waterways Company, is sought in a resolution placed on the order paper of the House of Commons, by Hon. C. A. Dunning, Minister of Railways and Canals.

The resolution seeks further authority: "To incorporate the Northern Alberta Railway Company, in which are to be vested the said jointly acquired railways." "To authorize the Governor-in-Council to guarantee the principal and interest of the securities to be issued by the Canadian National Railway Company, to an amount or amounts fixed from time to time by the Governor-in-Council for the payment of one-half the purchases, and one-half the obligations assumed, under the said agreements."

The Explanation

"I bought a new car and gave up my piano-player as first payment." "I didn't know they accepted piano-players as payment on new cars."

"They don't usually, but the salesman is a neighbor of mine."

Wills (giving attention to instructions): "Now, remember, Willie, when these cakes are baked round you must take a plain bun from the bottom of the dish."

Willie (dismayed): "Just my kind! The bargain basement again!"

"Dick is all right if you know how to take him."

"I hate these people who have to be labelled like a bottle of medicine."

You Can't Dye a Dress with Promises!

You can't dye a dress—no matter how careful you may be—without real color. That's the idea behind Diamond Dyes. They are made to give you real service. They contain from three to five times more aniline than other dyes on the market.

Next time you want to dye, try Diamond Dyes. See how easy it is to use. Then compare results. Note the absence of that faded look, of streaking or spotting. See how soft, bright, new looking the colors are. Then observe how they keep their brilliance through wear and washing. If you don't agree Diamond Dyes are better dyes, your dealer will refund your money.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or set silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the best professional work. When you buy—remember this. The blue package dyes silk or wool in half the time. The white package will dye every kind of goods, including silk and wool.

Your dealer has both packages.

Diamond Dyes Perfect results Easy to use

INTERIM POL PAYMENT ON THE 1928 CROP

Winnipeg. — An interim payment on the 1928 crop totalling more than \$28,000,000 is being distributed to Wheat Pool members of Western Canada, according to a statement by E. B. Ramsay, general manager of the Canadian Wheat Pool.

The payment is 12 cents per bushel on wheat grades one to five, and on flax and rye. Ten cents per bushel on wheat on number six wheat.

Manitoba Pool members are receiving the sum of \$2,289,405.46 on deliveries of 18,408,000 bushels of wheat and 763,760 bushels of flax and rye.

Members in Saskatchewan are receiving \$17,409,453.34 on 14,614,000 bushels of wheat, and \$1,565,000 bushels of flax and rye.

The Alberta Pool payment of \$3,410,032.12 is on 25,500,000 bushels of wheat. The total amount distributed is \$20,198,922.92.

The payment made at this time is the first payment to be made on grain of the 1928 crop following the initial payment made at the time of delivery by the growers. The first interim payment was dated March 9, but pool officials state that the date of the payment was advanced this year as much as possible in order to accommodate the thousands of pool members who have been hard hit financially as a result of the very disastrous frost which occurred on August 23, 1928, and which was general over the three provinces.

The Saskatchewan crop was particularly damaged by this frost owing to the fact that there are so few reserves in the province that it was not affected to the extent of lowering the grade of the crop from two to four grades.

Commenting on this aspect of the 1928 crop, and on the payment now being made, A. J. McNeil, president of the Saskatchewan Wheat Pool, said:

"Notwithstanding the relatively higher price for wheat which prevails now as compared with the heavy crop season of 1923-24 when the Alberta Pool alone was operating in Western Canada, and notwithstanding the exceptionally heavy crop harvested by Saskatchewan farmers in 1928, there is no question that the wheat grower has just cause to be greatly troubled over the financial returns from his efforts last year. By way of comparison, it may be said that for the period of the crop year, August 1 to January 31, the grading of Saskatchewan Pool deliveries from the 1927 crop averaged 22.23 per cent, as falling into the grades from No. 4 to feed, while the corresponding figure from the crop of 1928 is 56.81 per cent. The cause of this greatly increased percentage of lower grades from the 1928 crop is the widespread frost which occurred in August, 1928.

Appointed To Tariff Board
Ottawa.—Hon. James D. Macdonald, minister of finance, announced the appointment of Frank R. Jacobs, D.S.A., of Edmonton, Alta., to the vacancy on the tariff advisory board. Mr. Jacobs is a farmer, and succeeds Hon. D. G. McKenzie, who resigned to enter the provincial government of Manitoba.

For Educational Purposes
Brandon, Man.—That the Manitoba government set aside one-eighth of all the natural resources that came under provincial control for educational purposes will be urged as a result of a resolution passed unanimously by the annual convention of the Manitoba School Trustees Association.

Close Town Jail
Danville, Ill.—With the office of chief of police abolished as unnecessary and the lock-up abandoned as a fire-trap, this town of 6,060 inhabitants is now depending on an honor system. Any arrested person has the prospect of lodging in the village hotel at the city's expense.

Has Had Effect
Ottawa.—Amendments to the Opium and Narcotic Drug Act, to provide for the conviction of aliens convicted of trafficking have had a salutary effect. Deportations have dropped from 1,249 in 1922, to 342 last year.

Grant Hall Received By Pope
Rome.—Pope Pius received an audience to Grant Hall, vice-president of the Canadian Pacific Railway who is visiting in Rome.

Britain Will Adhere To Locarno Treaty

Has Not Considered Any Other Agreement With Foreign Powers

London, Eng.—Godfrey Locker-Lampson, under secretary of state for foreign affairs, assured the House of Commons that Great Britain would enter into no military agreement with other powers that would in any way be contrary to her obligations to Germany under the Locarno security pact.

He made this statement in answering one of the many questions propounded as a result of recent publication in Holland, of an alleged military pact between France and Belgium, the particular question being:

"Can assurance be given that no military discussion will be held with France or Belgium which would not include Germany, in order strictly to maintain British obligations under the Locarno pact?"

The reply was: "The member may be quite sure that we will do nothing contrary to the Locarno pact."

Volume of questions regarding the alleged Franco-Belgian military agreement, and reports that Great Britain had some connection with it, were filed at the government in the House. Godfrey Locker-Lampson made categorical denial of the rumors.

"Apart from the treaty of Locarno no agreement involving a military commitment has been concluded since the war between this government and Belgium, nor is any military agreement or understanding in existence between the British government and that of any foreign country."

Purchase New Plane

Universal Airways, Limited, Order Another Machine For Use In Saskatchewan

Regina.—Spending up their plans with the question of the purchase of a new machine for use in the province, officials of the Universal Airways, Ltd., ordered for immediate delivery of a new cabin airplane for use in their proposed transport and express service in Saskatchewan.

The new machine will be capable of carrying a load of 500 pounds of freight. It will have a cruising radius of 500 miles and will be able to travel at a speed of 130 miles per hour when loaded. It will have a top speed of 150 miles an hour.

Company officials announced that it is proposed to order another machine within the next six or eight weeks. This machine would be the latest of its kind purchased.

No Divorce Court For Ontario
Ottawa.—Defeat in the House of Commons of the bill to establish a divorce courts in Ontario saw the divorce laws badly broken on the division. Introduced as a private member's measure by J. B. Woodworth (Lib., Winnipeg North Centre), the bill was defeated by 99 to 48. Premier Mitchell King then announced that he was acting Conservative leader, not present for the division.

Died In Geneva
New York.—Frederick M. Harris, editor-in-chief of the publications of the Young Men's Christian Association, died in Geneva where he had gone last October for medical treatment, according to word received here by his associates.

Westminster Glee Singers

Famous Organization Making Tour
Ottawa.—The Westminster Glee Singers, one of the most famous musical organizations of the present winter, is the visit of the Westminster Glee Singers, who are at present touring Western Canada. The excellence of this traditional group of singers is known throughout the Empire, and music lovers of the Canadian West are greeting with delight the appearance of these famous entertainers, even of whom are boy contraltos.

The program includes a charming arrangement of madrigals, plantation songs, folk songs, ballads, choruses and sacred selections. Following is the balance of the itinerary arranged for them in Western Canada. Prince Albert, March 8 and 9; Saskatoon, March 11, 12 and 13; North Battleford, March 14; Vermilion, March 15; Yegreville, March 16; Olds, March 18; Ponoka, March 19; Red Deer, March 20; Edmonton, March 21, 22, 23; Calgary, March 24, 25; Lethbridge, March 26, 27; Medicine Hat, April 1 and 2; Macleod, April 3; Coleman, April 4; Fernie, April 5; Cranbrook, April 6; Kamloops, April 7; Penticton, April 10; Kelowna, April 11; Vernon, April 12; Kamloops, April 13; Chilliwack, April 14; Vancouver week commencing April 22nd.

Application Is Dropped

Canadian Northeastern Not Building Railway Into Peace River Country

Victoria, B.C. — The Canadian Northeastern railway dropped its application for right to build into the Peace River country and will not conflict with any plans which may be made in that direction for the Pacific Great Eastern, the provincially-owned line. With its part of the original application dropped, approval of the private bills committee of the legislature was given to the company's request for right to build a line for 285 miles from Stewart, a Columbia, to Fort Graham, in the central northern part of the province.

The Northeastern also dropped its request for right to build a branch up the Finlay river from Fort Graham for 100 miles, pending decision of the future of the government line.

PREMIER KING ON THE QUESTION OF RESOURCES

Ottawa.—The whole vexed question of the return of the natural resources to the western provinces was ventilated in the House of Commons recently. In a lengthy speech, Premier Mackenzie King reviewed the history of the natural resources problem and outlined the position today.

In brief, the situation at present, as dealt with by the prime minister, is as follows:

The province of Alberta is now considering an offer from the Dominion government of the return of its natural resources coupled with the payment to it of a subsidy amounting to \$562,000 annually for all time.

Saskatchewan has refused an offer of the transfer of its lands "without any strings attached," and the payment of the present subsidy.

Agreement has been reached to transfer to British Columbia lands in the Peace River block and the railway belt. At present officers of the departments concerned are working on the necessary agreement having to do with the transfer.

With reference to Manitoba, the commission is now engaged on matters concerned with the handling over to that province of its lawful resources.

The Prime Minister made only passing reference to the Seven Sisters Falls lease to the Winnipeg Electric Company. The leader of the opposition had been critical of the haste which Mr. Bennett claimed prompted the government in its disposal of the natural resources to Manitoba.

Earlier in the session, the Premier had stated that the government had condemned the government in its delay in dealing with this matter. Mr. King remarked, amid laughter, that "the whole reason of the haste was to avoid delay."

Radio Operator Has Travel Record

Trained operators in charge of radio-equipped cars in daily service on the Canadian National Railways travelled a total of 6,134,726 miles during 1928, and the most travelled operator during the twelve months was R. K. Anderson, who may well lay claim to a world's record for his performance.

Mr. Anderson covered 133,000 miles on duty, a distance which represents the circumnavigation of the globe several times. This operator is usually on duty on board the International Limited, the fast daily train operating between Montreal and Chicago. Trains en route on the Montreal and Chicago line are equipped with radio, the Canadian National Railways being the first in the world to offer radio service for passengers.

The illustration shows Mr. Anderson seated at the receiving apparatus in a library, conversation, observation car.

RECEIVES NEW APPOINTMENT

J. M. McLeay, newly appointed General Agricultural Agent, Western Union, Canadian Pacific Railway.

J. M. McLeay, newly appointed General Agricultural Agent, Western Union, Canadian Pacific Railway.

Famous Flyer In Accident

Col. Lindbergh and his fiancée, Miss Morrow, met with mishap in Mexico City.—Colonel Charles A. Lindbergh's flying skill saved the life of his fiancée, Miss Anne Morrow, when their plane crashed on landing at Yabeta Field.

The colonel is confined to bed in a hospital, his fiancée, however, with what embassy attaches describe as a "slightly dislocated shoulder blade." Miss Morrow was badly frightened, but not injured.

Colonel Lindbergh was returning from an air trip of several hours with the girl while he was married. The airplane, a four-passenger monoplane named the "City of Wichita," had been crippled by the loss of a landing wheel and the colonel faced a situation of unusual danger with the chances favoring a crash.

He brought the plane safely to earth and landed for thirty yards on one wheel with the axle of the missing wheel dragging on the ground. Suddenly the plane pitched forward and turned completely over.

Later, Colonel Lindbergh declared "this is nothing at all. It is not an accident; it is simply a mishap."

Dynamite Plot Failed

Explosive Is Found In Office Of Premier Taschereau, Of Quebec
Quebec.—Questioned as to a rumor that an attempt had been made on his life, Premier Taschereau stated that when he went to his office in the parliament buildings and at its conclusion returned to his office. Switching on the lights at once he found the dynamite lying on the floor with a half-burned fuse attached. The fuse had been extinguished by some agency after burning a few inches.

Premier Taschereau had been attending a committee meeting in the parliament buildings and at its conclusion returned to his office.

Switching on the lights at once he found the dynamite lying on the floor.

Premier Taschereau had the explosive removed by police and it was discovered to be dynamite of the most powerful type.

Employment Situation Shows Improvement

Better In Canada Than In Any Foreign Country

Ottawa.—Employment in Canada on February 1, was in better condition than on that date in any year on record, according to the Dominion Bureau of Statistics. Reports from 6,391 firms showed a total of 933,943 employees as compared with 921,404 on January 1.

The contraction on the prairie provinces was less than on February 1, 1928. The situation continued better than on the same date in any year on record. Manufacturing and logging advanced, while there was a shrinkage in trade, construction transportation and communications.

The situation was also better in British Columbia as compared with the same date last year. There was substantial improvement in mining but logging, manufacturing and transportation were slacker.

Pioneer Lake Captain Dead

John Copesow Saw First Steamship To Salk Lake Superior

Port Arthur, Ont.—Marine Captain John Copesow is dead here aged 82 years. At Sault Ste. Marie he saw the passing of the Rescue, the first steamship to sail Lake Superior. He was called on the Chicago, former block leader.

In 1871 before the advent of the Canadian Pacific Railway, he carried mail and passengers for the route between Duluth and Port Arthur. He served with the Queen's Own in the Fenian Raid and was one of the guard of honor at the reading of the proclamation of Confederation in Toronto, in 1867. Later he served with Wolseley in the Northwest.

Forced To Swallow Knife

Toronto Thugs Use Inhuman Method On Victim
Toronto.—Angered at the small amount of money they found on a victim, two thugs forced Angelo Augustus, 35, Toronto, to swallow a jack knife, more than four inches in length.

Angelo is now in hospital where doctors hope to save his life. According to the victim one of his assailants attempted to make him swallow the knife with the blade open and his accomplice interfered and the blade was closed.

Angelo is now in hospital where doctors hope to save his life. According to the victim one of his assailants attempted to make him swallow the knife with the blade open and his accomplice interfered and the blade was closed.

TESTIMONY GIVEN ON MANITOBA POWER DEAL

Winnipeg.—Negotiations between the Winnipeg Electric Company and the Bracken Government regarding the Seven Sisters power site were not affected by any advance knowledge of the Hogg report concerning the private firm, Edward Anderson, K.C., president, stated recently before the Royal Commission inquiring charges made by Colonel F. G. Taylor against the Bracken Government. Mr. Anderson testified that the agreement was made after "real, genuine, honest, bona-fide negotiations."

The Winnipeg Electric Company would not have made the bargain as it resulted had they known the nature of the Hogg report. Mr. Anderson stated that would have "held out" for better arrangements.

The report submitted by Dr. T. H. Hogg, consulting engineer for the Ontario Hydro Commission, has been regarded as the influence leading the Bracken government toward leasing the Seven Sisters site to the Winnipeg Electric Company.

Negotiations with the Bracken government almost "blew up" when it was introduced by W. M. McLeay, at that time president of the Winnipeg Electric Company, considered the government was "driving a hard bargain," was stated by Mr. Anderson.

Counsel appearing before the Royal Commission have intended no imputations whatever against the character, integrity or sincerity of Dr. T. H. Hogg, who submitted an expert report to the Bracken government. It was announced by Chief Justice MacDonald, after an examination of the report, that the report was "a fair and honest report."

A telegram had been received from Dr. Hogg referring to "impressions" reflecting on his integrity and handed at the time of the Hogg report. It was not stated whether he would be called to appear, though it was stated that the report was "a fair and honest report."

Plans Long Flight
Toronto.—Captain Kerol Boyd, a Toronto pilot, announced Tuesday he would attempt the first non-stop trip between Toronto and Mexico City "in about a month's time." The plane will be used to carry mail and passengers, he said.

Planned Two Zeppelins

Berlin.—Walter Scheer, a veteran balloonist and the man who stood at the wheel of two Zeppelins when they were shot down by the British, stated that he had planned to build two Zeppelins, each with a crew of 10 men, to be used for mail and passengers, he said.

PRIORITY RIGHTS ARE CLAIMED BY TWO COMPANIES

Ottawa.—The bone of contention between the Canadian National Railways and the Canadian Pacific Railway, with regard to the branch line program, came up before the parliamentary committee on railways and canals. Except for one area, an agreement has been reached between the two companies in connection with their program. The single exception is the line projected between Montreal and Aberdeen, in Saskatchewan, to which both companies claim priority construction rights.

Sir Henry Thornton, president of the National Systems, told the committee that the Government would not claim this territory by virtue of the fact that the C.N.R. had already Canadian Northern had already started building there, and had already graded 10 miles of the 67 mile project. Four years ago this line had been one which had been presented to the Government in the company's program, but with others it had been rejected by the Senate. He felt that the railway had given ample evidence of its good faith in preparing to carry on what it had promised. Commenting on a protest by A. F. Tozick, of Humboldt, Sir Henry declared that the C.N.R. did not claim any part of Canada as exclusively Canadian National territory, but felt that it was reasonable and as a matter of common sense that parties to the line upon which work had already begun should be regarded as within the scope of C.N.R. construction.

E. P. Flinteroff, K.C., counsel for the Canadian Pacific Railway, declared that last year, his company had carried on surveys, upon the representations of the inhabitants of this district, and on their declarations that they would build a line through the area. He felt that the committee should grant the charter in order that it might keep faith with the public.

Death Of Sir James Atkins

Former Lieutenant-Governor Of Ontario
Winnipeg.—Sir James Atkins, K.C., former lieutenant-governor of Ontario, died at his residence in London, Ontario, at 10:15 a.m. Monday morning.

Sir James, who was in his 78th year, died at the residence of his son, Major H. Harold Atkins, shortly after midnight. He had been ill for a week, when he suffered a heart attack.

Sir James had a brilliant career in law, politics, the church and business, and was one of the founders of the Canadian Bar Association, and for many years was its president.

Complete Trip By Boat

Bainbridge, Me.—The French aviators, Joseph Leblanc and Sergt. Major Antoine Paillard, will complete their trip from France aboard the steamer Port of France, arriving March 5, a message here states. It is said their plane was wrecked in the crash which occurred about 122 miles from Bangon. The occupants were unhurt.

Will Search For Italia Crew

Rome.—Italians who believe that it is still possible to find some trace of and perhaps even to rescue the six men who drifted away with the balloon part of the Noble dirigible Italia are attempting to raise funds for a new expedition next summer. They would lease an ice-breaker and expect the loan of a seaplane from the Italian Government.

Women Refused Franchise

Quebec.—By a vote of 50 to 16, the Quebec legislative assembly killed a bill introduced by William French-Blay, Conservative M.L.A., for Malouin, to give the women of Quebec the vote for general elections. This is a gain of five votes for the cause of suffrage as compared with last year.

Plans Long Flight

Toronto.—Captain Kerol Boyd, a Toronto pilot, announced Tuesday he would attempt the first non-stop trip between Toronto and Mexico City "in about a month's time." The plane will be used to carry mail and passengers, he said.

Planned Two Zeppelins

Berlin.—Walter Scheer, a veteran balloonist and the man who stood at the wheel of two Zeppelins when they were shot down by the British, stated that he had planned to build two Zeppelins, each with a crew of 10 men, to be used for mail and passengers, he said.

Radio Broadcasting in Canada

The Canadian Government recently appointed a Royal Commission to study and make report on the whole subject of radio broadcasting in Canada. That Commission, headed by Sir John Aird, is at present in Europe studying the methods employed in Great Britain and some of the continental countries. It proposes to also study the methods followed in the United States, and, later, will hold public sittings throughout Canada with a view to obtaining the opinions of Canadian citizens.

The importance of this Commission's work can hardly be over-stated. Radio has, in a few short years, come to occupy a vital position in the lives of the people, while the future possibilities of this newest form of entertainment, and its importance as a means of publicity, are such that the national interests demand that a well defined policy in the interests of all concerned, but more particularly in the interests of the Dominion itself, be developed with the most possible delay.

The question that naturally arises in the minds of patriotic Canadians is whether or not the radio in Canada is to be dominated by wealthy and powerful private interests in the United States, just as the moving picture business has been, or whether Canada will itself develop an acceptable system of national broadcasting.

It has to be recognized and accepted as a fact that the great United States moving picture corporations control the situation in Canada, moving picture theatres, at least through the making and distribution of the films that are shown in this country. There can be no successful denial of the assertion that because of this control of films it is possible for United States interests, continents, enterprises, modes of living, and general propaganda of all kinds, to be indubitably injected into the lives and thoughts of the Canadian people. In a word, one of the most powerful agencies for the dissemination of ideas throughout Canada is in the hands of private and wealthy corporations in a foreign country.

To a large extent the same situation has developed through the enormous circulation which United States magazines and periodicals of all kinds have secured in Canada. Apart from this effect which the reading matter in these periodicals has upon Canadian thought, the advertising matter constitutes a powerful agency attracting millions of Canadian dollars across the line for the purchase of United States products.

In Great Britain radio broadcasting is under the direction of the Government through the medium of a national broadcasting organization. Owners of receiving sets pay a license fee, and the money thus realized is expended in providing worthwhile programmes. In the United States, on the other hand, broadcasting is in the hands of private interests. Good programmes are nationally broadcasted, but they are paid for through advertising sandwiched in at intervals throughout the programmes. All this material, specially prepared for United States consumption and to meet the requirements and demands of the interests of United States business, is carried through the air into hundreds of thousands of Canadian homes every day in the year.

It is not necessary to be anti-American, or in the slightest degree unfriendly to the United States, to nevertheless realize that this is not a good thing for Canada in a national sense. Our Canadian broadcasting stations are widely scattered over the Dominion. They have not the broadcasting power of the big U.S. stations. Nor have they the resources to finance the same type of high class and expensive programmes offered in the United States. Canadian national advertisers have not the same large market to appeal to, and consequently cannot afford to spend tens of thousands of dollars in radio advertising.

Furthermore, do the Canadian people prefer private control of radio broadcasting, financed on the basis of advertising, to the system which finds favor in Great Britain of national broadcasting financed through the payment of a reasonable annual license fee by owners of receiving sets who are the real beneficiaries of the broadcasts?

The influence of radio must be admitted. It already occupies a position along with the newspaper and the moving picture as a medium of information and a source of education and entertainment. It is here, and here to stay, to grow, to develop as perhaps few even now imagine. It will be a power for tremendous good or evil. It is essential that Canada, not neglecting the opportunity it presents, should adopt a wise policy in regard thereto.

Many Divorce Cases

With a marked increase in petitions within the past week the sessions divorce committee has the largest accumulation of divorce cases in history. The number so far is 214, with 148 from Ontario and 26 from Quebec. Wives seeking divorce in 121 cases and husbands in 93.

Minard's Liniment for the Gripe and Flu

The Porcupine gold area in the District of Cochrane (Northern) has been found to be the richest in the gold producing area in Canada.

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillip's Malt of Magnesia. It has remained standard to the physicians for 50 years since its invention. One spoonful of Phillip's Malt of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, from indigestion. You will never again pleasantly try this premier method. Please let it show you now.

Covered Everything

Candidates for political office, successful or otherwise, who are required by law to file campaign expenses returns, may be interested in this particularly succinct one filed in Massachusetts: "Paid nothing; promised nothing; got nothing."

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

At the Paris fair courts there is an old lady of 80, who has been employed for the last 50 years as shorthand writer, and is still active.

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer, from indigestion. You will never again pleasantly try this premier method. Please let it show you now.

Be sure to get the genuine Phillip's Malt of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any drugstore.

Canada's Climate Attractive

Even Winter Weather Is Enjoyed By Majority Of People

The Montreal Star says: "It has been the fashion for many years to quote Canada as a wintry land. The habit has persisted, despite the actual facts regarding our climate, which probably presents the widest latitude 'in conditions of any country in the world today. But just now Europe is having a taste of what a really hard winter can achieve. Street bridges have been cracked in two by Arctic temperatures of a severity almost unknown in modern records. Shipping to the north is leibund, and even the Black Sea is beginning to freeze over—an event unrecorded within living memory.

Now if the people who are at present suffering so acutely were in Canada, they would be enjoying themselves. We have not been attacked by an unprecedented cold weather, and the general conditions through out the country having been so good as to cause any discomfort. Indeed there is good ground for utilizing the attractiveness of our climate as a drawing card for interested immigrants, instead of frightening them with lurid pictures of winter of an Arctic character. A little more truth, and a little less floundering, would help immigration better than lantern slides and flaming posters on the walls."

CORNS

Relief in 2 Minutes

Just a drop or two of Putnam's Corn Extractor, and the pain goes away. Relief is almost instantaneous. Removing corns with "PUTNAM'S" is easy, sure, and painless. Thousands use this wonderful remedy. "Putnam's" is the best. No matter how long you use Putnam's Corn Extractor, the one sure relief for corns. Sold at every drug store.

Peace River Settlement

A Million Acres Of Land Taken Up By 5,000 New Homeowners

Approximately one million acres of land were taken over last year by 5,000 new homeowners in the Peace River country. The Rt. Rev. E. F. Robbins, D.D., Bishop of Athabasca, stated in an address before the Empire Club at Toronto, "Peace as if the country will bear it," he said, "I fancy it will bear it for about 20 years at that rate."

LIFE WAS A BURDEN

Health Restored Through the Use of Dr. Williams' Pink Pills

"I am writing to express my gratitude for what Dr. Williams' Pink Pills have done for me," says Mrs. W. J. Dowling, Tottenham, Ont., and she says, "I was so tired and down that I felt that life was a burden. The doctor said my trouble was due to poor blood, and his medicine did not help me. My face was sallow, my hair thin, and at the least exertion my heart would palpitate so violently that I would have to lie down. My feet and legs would swell and cramp, and all my friends thought I was in decline. In this condition I was urged by a friend to try Dr. Williams' Pink Pills. I got three boxes, and to my delight, by the time I had used them I began to feel better. I got on further and kept on taking them. Daily I felt myself growing stronger. The color returned to my cheeks and lips and I felt a new interest in life. To sum up I can now say that I am feeling fine, for which I give the credit to Dr. Williams' Pink Pills, which I strongly recommend to all weak girls and women."

A useful book, "Building Up the Blood," will be sent free on request by the Dr. Williams' Medicine Co., Brockville, Ont.

Dr. Williams' Pink Pills are sold by all druggists or will be sent by mail, post paid, on receipt of price, 50¢. Try them today.

Where Nobody Is Young Nobody is young in the little village of Burdell, Hampshire. The inhabitants boast that their aggregate age, in proportion to the population, is the highest in the country. There are twenty-seven old folk whose years total 2,115—an average of seventy-eight each. Once Burdell was a thriving community, but now strawberry growing is the only industry. All the young people have left for more fruitful fields.

A Power Of His Own. Dr. Thomas' Electric Oil has the power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prescribed by leading liniment for man and beast.

Italy has forbidden the exhibition in any part of the kingdom of films depicting war episodes.

Use Minard's Liniment for the Flu.

W. N. U. 2775

Papered With Postage Stamps

Near Bognor, England, Is Known As Stamp House

Near Bognor, where the King has been removed for his convalescence, there is an inn known as Stamp House. Its walls and ceilings are completely papered with old postage stamps, and festoons of them are hung from one side of a room to the other. The "collection" was started many years ago by a former host of the place, who had a passion for stamps, and papered his first room with them. It is believed as a result of a wager. Under the mellow varnish there must now be hundreds of thousands, and report has it that many in semi-hidden corners are rare and valuable.

BABY NOT GAINING? LOOK TO HIS DIGESTION

Babies can't gain when eating waste in a clogged digestive tract. It is forming gas, making them colicky, and causing indigestion. Just try the method doctors endorse, and millions of mothers know, and see how your baby improves. A few drops of purely vegetable, harmless Fletcher's Castor makes a few days of purely-vegetable baby child comfortable in a jiffy. It is a safe, gentle, and effective remedy for perfectly and gaining. Look for Dr. J. C. Fletcher's signature on the wrapper.

Recipes For This Week (By Betty Barclay)

NEW YORK SALAD

4 slices pineapple.
1/2 cup celery.
1/2 cup nuts chopped.
2 oranges.
Cream mayonnaise.
Lettuce.

Arrange slices of pineapple on nests of lettuce leaves. Cut celery in slender strips, and one-half chop long, and mix with nut and mayonnaise. Pour dressing over pineapple, and garnish with four sections of orange, free from membrane, laid symmetrically on pineapple. Pass dressing separately.

BOILED CAKE FROSTING

1 cup sugar.
1/2 cup orange juice.
1 egg white.
1 grated rind of one orange.

In a smooth agate saucepan put sugar and orange juice and rind, mix well, and boil, being careful not to stir or disturb until it will spin a long thread when it drops from the tip of spoon. Lift gently from fire, and pour slowly, while beating vigorously, with a strong egg-beater, into a bowl. Beat until stiff. Continue beating until frosting is stiff enough to hold its place, pour all at once onto cake and spread over surface with a few movements of a large, flat knife.

Minard's Liniment prevents Flu.

Standards Of Greatness

Worth Or Titles To Judge Of An Individual's Pre-eminence

The mind of the average American is a curious mixture of materialism and sentiment, and we must bear those qualities in mind when we criticize him. He has a great big heart and a keen eye for the almighty dollar, which is, for him, to all intents and purposes, the mark and emblem of a man's success in life. Here, in Great Britain, titles, honors, orders and decorations are the rewards for pre-eminence. In America there is no "honors list." The only list that counts is the yearly statement of income tax paid by every citizen and published in the public domain, and it is not wide so that all can see how a man has risen above his fellows. No wonder, therefore, that everyone strives unceasingly to get rich—Sir George Armstrong in The London Observer.

Strain Of City Life

The stress of living in the cities is today a more potent factor in causing insanity than the loneliness of the isolated farm and settlement, which emphasis has been so frequently laid in the past in Canada, according to Dr. W. M. English, medical superintendent of the Ontario Hospital, Brockville, with over 800 patients. On the other hand, telephones, motorcars, and radios have broken down the isolation of the farmer and settler and insidiously through loneliness is no longer found in the degree formerly known.

Swing Of High Buildings

The Eiffel Tower (984 feet) sways as much as three feet in a heavy gale; but the Woolworth Building (792 feet) and other tall skyscrapers do not move more than one and a half inches in high winds.

Just Right for This Weather

High in calories and warming carbohydrates—No fuss or bother—just warm in oven and serve with hot milk

Made By The Canadian Shredded Wheat Company, Ltd.

Need New Terminal Station

Frederick Palmer Recommends New Station At Montreal For C.N.R.

It is absolutely necessary to provide suitable passenger station accommodation for the Canadian National Railways at Montreal, says Frederick Palmer, the well known British railway terminal expert, whose services were retained by the government to study the matter of furnishing the eastern metropolis with more commodious terminal facilities for the Canadian National Railways and at the same time survey the possibility of a joint station for the C.N.R. and the C.P.R. Mr. Palmer's report to the minister of railways was made public.

Heavy Oil Production

Growing Importance Of Alberta's Oil and Gas Fields

The steadily growing importance of Alberta's oil and gas fields is shown in recently published figures. The production of Alberta with for 1928, is placed at 480,515 barrels as compared with 321,154 barrels in 1927. Of the 1928 production the Turner Valley field, in Southern Alberta, contributed 410,623 barrels of naphtha, and 70,734 barrels of crude oil, the remaining 6,154 barrels coming from the Wainwright field. The total production of natural gas for the province in 1928 is placed at 14,108,000 million cubic feet, as compared with 12,833,801 million in the previous year.

Fishing With Power

Electricity has voided the use of fishing nets in many parts of America. Two copper cables, placed one on top and one below the water, are charged with electricity. Fish in the vicinity are electrocuted and come to the surface, where they are gathered by these modern fishermen.

The Value Of Birds

Only Protection Country Has Against Insect Enemies

It is estimated that 10,000 caterpillars could destroy every blade of grass on an acre of cultivated land. An insect-infested tree may contain 12,000,000 insects. The bird population of the country has been estimated at from 700 to 1,000 per square mile, and these birds, few enough in number, are our best protection against the insect enemies which they were intended to destroy. The man who kills these insectivorous birds is helping to destroy his own country.

Nearly all children are subject to the many ills that come with them. Spare them suffering by using Mother Graves' Worm Exterminator, an excellent remedy.

There are places in India where there are about 600 inches of rain in some years.

FLU

Claims Many Victims in Canada and should be guarded against

Minard's Liniment

is a Great Preventative, being one of the oldest remedies used. Minard's Liniment has relieved thousands of cases of Gripe, Bronchitis, Sore Throat, Asthma and similar distress. It is an Enemy to Germs. Thousands of bottles being used every day. For sale by all druggists and general dealers.

Minard's Liniment Co., Ltd., Vermont, N.B.

The family album is coming back. It is reported, but its companion, the gas jet that could be turned down low, has departed forever.

Near Cardiff, Wales, road repairers have placed a sign reading: "A car on the road is worth two in the ditch."

There are 209 rooms in Buckingham Palace.

Demand

ASPIRIN

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) for Bayer's Aspirin. While it is well known that Aspirin means Bayer's Aspirin, it is not known that Bayer's Aspirin is the only Aspirin that is safe and effective. Bayer's Aspirin is the only Aspirin that is safe and effective.

CHAPTER XV.—Continued

For a moment Connie was silent. "When—when my dreams come true," she responded with an embarrassed smile.

Then he told her of the city and its ways and the things people did. She listened, not with amazement, but with a contented smile, as though what he told her was confirmation of her dreams. But when he told her of the grand opera, the costumes and the singing, her grey eyes wide with longing, she sighed deeply.

Donald's voice trailed to a drowsy gleam; his chest rose and fell regularly, his features relaxed. He felt as though he were floating, peacefully floating, on a sea of reality that was bearing him softly away. A delicious languor enticed him—no enchantment drowsy and dim. He felt himself drifting, drifting.

He was asleep.

The willows at the lower end of the meadow were pushed cautiously aside, and Hand's head appeared in the opening. For two days he had been huddled in the bushes, waiting to waylay Donald. The day after the fight he had boarded the train for the coast, but had slipped from the car at the station below.

His face—unprepossessing at its best—was now a horrible sight. The thick lips were swollen and cracked, the eyes discoloured and puffed, and the broken teeth bared in a snarl as he saw Donald lying by the stream.

Every hour since that fight, Hand's hatred for Donald had grown keener. He would show him that he, Glendon, deserved his reputation as a fighter. He would hold this crippled man helpless while he showered blows on his unprotected face, make him cry out for mercy on broken knees, perhaps kill him. His hatred grew hotter and deeper as he watched him lying peacefully beside the girl who had been the cause of the fight in which he had been ignominiously whipped down.

Connie sat gazing down on the sleeper. A sudden thought came, bringing a warm flush to her cheeks. Why not? No one would ever know. Would she dare? She glanced anxiously about her, then leaned slowly over, her curls falling about her face, and touched her soft lips to Donald's cheek.

A bluish scream drifted derisively Connie came to her feet, her face crimson. Donald stirred, opened his eyes, and painfully raised himself. "I'm sorry, Connie," he apologized. "It was very rude of me to go to sleep."

A moment later he walked down the hill. Connie accompanied him a short distance, then turned up a steep path, and from a high, rocky ridge she watched his retreating figure as he turned toward the dam.

A huge bucket on a chain, that had been used during construction for carrying men and material across the roaring chasm below the dam, still hung above the boiling water.

For Donald there was a certain thrill, a keen exhilaration, in swinging in mid-air in this crude excitement. He staggered to the basket, and with his one good arm pulled it along the rusty cable.

The freed, hidden near the trail, saw Donald as he walked toward the dam. The vicious look in his eyes gave place to one of strained interest as he saw the two men skulking menacingly after the unsuspecting man.

With a feeling of malignant exultation, as he sensed disaster to the man he hated, he hobbled to the trail and furiously followed.

From the heights above Connie saw the sneaking figures as they crouched low against the edge of the dark spruce and at once divined that with no trace of the crime, he wore a fire-axe from the wall of the tool-house and ran to the swaying cable and set it stop them. Stop them!

Screaming again, she plunged straight down the hillside in a mad race to reach the scene of action. Running like a deer, stumbling and slipping, her breath coming in short gasps, she ran wildly on. Starts of the thorny crabapple tore at her, devilish lace lacerated her face and hands, but she felt no pain. "O God," she prayed aloud, "help me to save him! Help me save him!"

Donald's face blanched at the sound of the axe as it bit into the heavy cable. He looked down at the jagged rocks and scolding waters below. Then with closed eyes and prayer on his lips he tore in mad frenzy at the rope. Desperately he tugged, and his hands, although a pain from his broken wrist, sent a wave of torment up his arm that sickened him.

So man can measure the speed of thought in a crisis; even the sluggish brain of the freed functionary rapidly, Connie was not for him. Her happiness was bound up in the man working feverishly at the hand-bowl. There was not one chance in a million that he would gain the safety of the cliff before the strands parted and plunge him to eternity. As he heard the crashing of Connie's slender body as she tore down the hill, a softness crept into his eyes. With a speed incredible in one with his painful deformity, he ran in a series of leaps, his feet to the edge of the hill. The noise of tumbling waters drowned the sound of his approach.

Hand raised his axe for the final blow, the muscular arms of the freed were flung about him. Emitting a startled cry, the big man turned and with a twist of his powerful shoulders flung his dusky assailant to the ground. As he rose Hand's hands, and struck his confederate a glancing blow on the shoulder that brought from him a howl of pain. Again the freed's arms closed about his adversary's waist. Med with the pain in his shoulder, the foreigner drew a long, keen knife, circled rapidly about the two wrestling men, until he found an opening, then plunged the knife to the hilt in the freed's left side. The stricken man fell, and the freed man turned and found a clumped heap to the ground.

Slow and gliding, Donald stumbled toward the bucket, seized the axe and advanced weakly toward Hand, his accomplice, taking one look

at the prostrate body, turned and fled head-stricken to the woods. Hand hesitated for a moment, then followed heavily after.

At this moment, Connie, with clothes torn and hair dishevelled, broke from the woods, and with a cry of joy flung herself to the ground by the freed's side and placed his hand on her lap. The eyes of the wounded man flickered slowly open. He tried to speak, but a strong convulsion shook his frame in desperate agony.

Connie's face as she lifted it to Donald was drawn with grief. "Get me some water please," she said brokenly.

The dying man's lips moved. Connie leaned closer.

"I—love you," he whispered faintly. "I—saw him—your—"

A ghastly pallor spread over his features and his lips were widely parted in a struggle for breath. Again his lips moved in a fluttering whisper. "Connie—will—you—"

As Connie pressed her tearful face to his pain-contorted features related in a smile of wonderful peace and his eyes closed.

When Donald returned Connie's head was bowed and she was weeping.

"How is he, Connie?" he questioned gently.

Donald removed his hat and knelt with bowed head.

"He died for me," he choked.

"Died for me?" she whispered faintly.

CHAPTER XVI.

Lost two years of memory, Nature gives us a change of colouring in the flowering seasons. Flowers of every hue may be found through the different months. For May, red, for June, blue, for July, and August, the flowering season of gold and purple cloaks the hills and valleys.

The last week of August brought to Summit Lake a pagentry of colour. The Coast region is densely clothed in the various shades of red, the ripening of the leaf. The deciduous trees were already withering, their life-long fight with the leaves to store it in their roots uniting. The willow, vine maple, birch and alder along the creek and lake-shore held touches of autumnal colouring; while on the hills the yellowed leaves of the cottonwood were brilliant in the setting of sober dark green conifers.

A gaudy red the vine maple, that there was a leafy beauty greater than theirs. The flowering dogwood, blazed from every nook and cranny. The ripening of the dogwood gave to the leaves a delicate pink, in the morning, a glow that further ripening deepened until its crimson flush became the liveliest hue of the forest. The Columbia woods.

The freed, or willow herb, that in July gave to the open spaces a gorgeous taint of bluey pink, were now coating a thick carpet of blue away like tiny parachutes. Each small bit of fluff held a minute germ of life, a tiny plant in its large as its parent when, dropped by the friendly wind, it reaches a fertile spot. The stately cottonwood were sending out a life-shed as true as that from the smaller plants. Thistles, cat-tails and asters hurried to join the silent clouds until the air was misty with these germ balloons seeking their winter's rest. The red elderberry and its magenta neighbour, the thimble berry, with the sweet South cape, gave to the woods a material flame.

A curious timidity had come over the birds; not only were they quiet but they were no longer to be found in their usual haunts. In some retired spot they were moulted. While in weather was at its best, and food was the most plentiful, they were dressing in their new plumage. They would not leave for some time yet, but the change had come. Birds from the north had arrived creeping slowly by easy stages, till the great flocks of the north were the—

the—great creatures that live, staying or going as they feel inclined.

(To Be Continued.)

What League Has Cost Canada

The League of Nations has cost Canada \$1,685,515.70 since its inception in the present, with the House of Commons to a query by T. L. Church, Conservative, Toronto, N.W.

When a carefully considered plan promises success, never hesitate to take the chance.

Little Helps For This Week

"And Jesus saith unto them, How many loaves have ye?"—Matthew xv. 31.

So still, dear Lord, in every place Thou standest by the toiling folk With love and pity Thy hand is raised And gives of Thy help and grace To those who meekly bear the yoke.

The lives which seem so poor and low,
The hearts which are so cramped and dull,
The baffled hopes, the impulse slow,
Thou takest, touchest all,—and lo!
They blossom to the sun and dew.

—Susan Coolidge.

"How many loaves have ye?"

It is the Lord's first question; and the hands of those who really wait His help search their robes to see what they have hidden there. One brings his joy, another brings his pain; another brings his helpless desire; another brings his poor resolution; another has nothing to bring except that his sorrow that he has nothing left. It is a poor collection,—only seven loaves and a few little fishes,—but it is enough. His blessing falls upon them, and they come back to the soul which gave them up to Him multiplied into the mass of healthy, joy happy life.—Phillips Brooks

Savings Certificates Popular

That Alberta Government Provincial Savings Certificates are recognized as a sound investment is indicated by the fact that sales during 1928 reached a total of \$815,000 over and above all withdrawals. The net purchases during the year were more than double those of 1927. A report for the year by the Treasury Department places the total amount of outstanding savings certificates at \$11,264,040. These certificates are sold largely by farmers of the province.

"Laugh heartily, speak kindly, and serve valiantly," are among a list of health rules issued by Dr. W. A. Daley, Hill, England, medical officer.

No Ground For Pessimism

Statistics Show Large Percentage of University Graduates Remain in Canada

In Canada

An independent survey of figures dealing with the whereabouts of our university graduates is somewhat enlightening in the way of refuting exaggerated statements to the effect that they are flocking to the United States. The latest available statistics show that 82.8 per cent. of the living graduates of the University of Toronto are resident in Canada and only 13.6 per cent. in the United States; the University of Western Ontario has retained 80 per cent., while 83 per cent. of the University of Manitoba's graduates have remained in their native country. This story finds a repetition in almost every college in the Dominion. Moreover, many graduates have found their way elsewhere only temporarily and will return in due course. Evidently there is not so much room for pessimism as many have imagined.

STORMY WEATHER

HARD ON BABY

The stormy, misty weather which Canada experienced in February and March is extremely cruel on babies and young children. Conditions make it necessary for a mother to keep them confined to the house, and the rooms may be hot, moist or badly ventilated. The little ones are cold and their whole system becomes racked. To guard against this a box of Baby's Own Tablets should be kept in the home and an occasional dose given the baby. A teaspoonful of, or if a cold suddenly grips him to restore him to his normal state and his good condition till the brighter, warmer days come along again.

Baby's Own Tablets are just what the mother needs for her little one. They are a mild but thorough active which regulate the bowels, sweeten the stomach, break up colds and simple fevers, banish constipation and indigestion and make the cutting of teeth and other painful conditions till the brighter, warmer days come along again.

The Tablets are sold by all druggists and by mail order from The Dr. Williams' Medicine Co., Brockville, Ont.

Only the office with no salary attached is obliged to seek the man.

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple preventive action now will enable you to fight dreaded "Flu" in preventing rapidly through the whole system. The germ of Influenza gains access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerville's Gargle. The body is made of Nerville's Gargle. The germ-killing properties of Nerville's quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerville's. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which eliminate the germ of disease-breeding wastes. This combination treatment of Nerville's and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

THIS is the all-powerful life producer, Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ray.

Medical research has definitely proved that from the point of view of health and hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding those vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want of a material which would have conclusively proved that it is a most efficient and safe substitute for ordinary window glass. WINDOLITE is made of ultra-violet rays, and that it is a most beneficial effect on the growth and development of plants and children and on the well-being of cattle, enabled for the first time to be raised in total darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increased the fertility and capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and business requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light let strong windows for cattle sheds, dairy sheds, poultry houses, brooders and all out buildings. It keeps out cold, wet, draft, and frost, and is a most effective way to keep out cold, wet, draft, and frost. It will not crack or chip—cuts with an ordinary pair of scissors and is easy to apply. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs. A square yard of glass of ordinary thickness, weighs about 135 to 140 lbs. The Improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100% Sunlight Send for booklet "WINDOLITE"

No. 4

Published in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DUPUE, Editor.

EDITORIAL

The Common Table Fork
The table fork, so common to us, is a comparatively recent acquisition. Two-pronged serving forks were used by the ancients, but as an instrument for eating, the fork was not accepted until the 17th century. Although Queen Elizabeth (1558-1603) owned one or two which she kept as curios from another race, it was her proud boast that in eating she never soiled her fingers above the second joint.

We have a car of for spring work, including 14 and 21 ft. disc harrows, rod weathers, drills, plows, cultivators etc.

Advice is something

"Good Equipment Makes a Good Farmer Better."

that a lawyer sells, a mother-in-law gives away, but which you cannot dispose of yourself.

The No. 8 Little Genius Tractor Plow is built in 2, 3, and 4-furrow sizes. The 2 and 3-furrow plows can be supplied with 12 or 14-inch bottoms. The 4-furrow is obtainable with 11-inch bottoms only. We carry a full line of the standard P. and O. bottoms for the No. 8 Little Genius.

Alcohol is excellent for preserving almost everything except seeds.

Our work shop is now under way, and if you need any work done on your tractor come in and see us. Our rates are very reasonable.

A Harness Help
If the tie ropes are attached to the inside hame instead of the outside, which is the usual practice, and the

reins are put over the tie rope before they are snapped to the bit ring, there will be no difficulty with the reins, or lines, getting under the end of the pole.

The coming crop drops through the knots of your grain drill. A good deal depends on the way in which the grain is dropped. You eliminate all possible risk of uneven sowing and sipping if you will use Mc-Dr. Front Seed Delivery Drills.

Selling an old lady a gallon of gasoline with which to start the kitchen fire nearly always results in the sale of a new kitchen range.

LOCAL AND GENERAL

Mr. and Mrs. J. N. Beaubier are expected home from Michigan shortly.

The photocopy, "Dawn" drew a big audience to Campbell's hall on Tuesday evening.

Mr. Logerwood, of Port Arthur, is here on a visit to his daughter, Mrs. G. M. Campbell.

Curling and skating were both stopped by the very warm weather at the first of the week.

Mrs. F. C. Alcock is at Medicine Hat this week attending the W. I. district convention.

The Elks held their regular meeting on Tuesday night. The next meeting is on Tuesday, March 19th.

Sam Fong, who returned from a year's visit to China recently, is again in charge of the Sam Fong Cafe.

Mrs. C. McLean was a delegate from Champion to the meeting of the P. T. A. in Calgary during the week.

Mrs. C. Atkins spent the week in Barons visiting at the home of her parents, Mr. and Mrs. E. S. Popham.

Rev. Lee, formerly of Champion, has resigned from the Barons charge but will continue until June.

J. N. Hill, formerly of Champion but now of Turin, was a visitor here on Thursday, making the trip by auto.

T. R. Jopling, who has been in Calgary taking special medical treatment, is home again in improved health.

Vince McClure, who has spent some months at Spokane, returned home this week looking hale and hearty after his trip.

With spring approaching those who have spent the winter at other points are returning home to prepare for seeding.

A new snow supply arrived on Tuesday after practically all the old snow had disappeared, with a considerable drop in the temperature.

Mrs. W. Ulrich was appointed on the religious education committee at the meeting of the Home and School Federation in Calgary last week.

K. R. McLean, R.O. of Anderson & McLean, Night Specialists, 208 8th Ave. West, Calgary, will make his monthly visit to Champion Thursday, March 28th. At the Drug Store.

Wheat still continues to make its way to the elevators but in greatly decreased volume.

J. O. Reid of Airdrie was in town on Wednesday and Thursday, renewing old acquaintance. Mrs. Reid and family are all well.

Mrs. C. E. Anderson continues to improve at the Holy Cross hospital, Calgary. She is expected to return home next Tuesday.

Miss Ina Hammon returned from California with Mr. and Mrs. Orville Harper, after spending a splendid winter at Los Angeles.

The Guest Tea under the auspices of the Ladies Aid will be held at the home of Mrs. Ryan on Saturday, March 9th from 3 to 6. All ladies welcome. Admission 25c.

Who killed Mimi Bellamy? You will find the answer in "The Bellamy Trial" at the theatre this week.

Eli Hopkins returned this week from a trip to the coast and California.

Mrs. J. Hagerman and Mrs. P. C. Cuenca who are wintering in Calgary came down for the O. E. S. meeting on Thursday.

A positive sensation of thrill and novelty when you sit in the comfortable room at "The Bellamy Trial" the theatre this week.

Mr. and Mrs. G. A. Manhard entertained to dinner on Monday in honor of G. A. Orr's birthday. The guests numbered ten.

Val Halle, The Prince of Conjurers assisted by Jerry "The Blockhead." Coming to Champion Wednesday, March 13th.

Jim Archibald left for Calgary taking his truck along. Jim has secured permanent work which will keep him in the city for some time.

Mrs. Alexander is the delegate from here attending the W. I. conference held in Medicine Hat. Mrs. G. F. Smith and Mrs. F. C. Alcock are also there.

James C. McLean, prominent commercial traveller, one of the Canadian curlers who toured Scotland in 1926, died at Pilot sound, Man. Mrs. McLean of Chesham is a sister.

The citizens of the Fireguard district gathered at the school house on Monday and presented Mr. and Mrs. E. Blackly with a beautiful leather suit case. The evening spent playing cards after which a delicious lunch was served. Mr. and Mrs. Blackly left for Vancouver where they will reside for the present.

The school room was filled with parents to hear the interesting and instructive talk by Miss Georgina Thomson, refereeing librarian of the Calgary Public Library. She had a list of children's books, fairy tales and other kinds, some of the latest additions which appealed to the parents very much. A return of Miss Thomson will certainly draw a large crowd if the P. T. A. decide to do so.
